

Our farm breeds for conformation, fiber & quality animals with a family touch.

Sales

We use AOBA form contracts in our alpaca sales. We are pleased to offer financing and will assist buyers before, during and after a sale. We will help you in any way to ensure your satisfaction and success.

Boarding

Whether you are looking for a temporary home away from home or are looking for a permanent arrangement for your alpacas, we are able to offer these services. On a short term stay, care is provided at \$3.00 per day per alpaca. For a long term, more permanent arrangement, please call or e-mail us at sralpaca@localnet.com for more information

Breeding

Herdshire services include 30 day ultrasound to confirm pregnancy of your female and a ten day live birth guarantee. If the ultrasound is not conclusive, we will also provide a progesterone test to determine a positive pregnancy.

There are no boarding charges for your female and nursing cria for the first 45 days she or they are with us.

We will also provide breeding services without having to leave your female. If you would like to arrange a "date," please give us a call. You can have your female bred, take her home. With this arrangement, however, you will need to have your vet perform an ultrasound and/or progesterone test.

When you leave your female (and nursing cria) with us for breeding, we promise she or they will receive the daily devotional care as we provide to our own herd!

Other Services

Computer/Web Support, We will provide help with Computer/Web Support first year of purchasing from us. After the first year, if additional help is need, we can discuss charges for services.
